PerformX Name Story

“Perform” represents performance, measurable outcomes and business growth.

The “X” represents the next level — going beyond conventional marketing and building a more complete, scalable growth system.

Business Model

B2B — Performance Marketing Partner / Growth Agency

USP

PerformX does not simply manage advertising accounts.

We build the acquisition system around them:

Creative → Paid Traffic → Landing Page → Conversion → Tracking → CRM → Revenue

Our approach combines performance marketing, creative testing, CRO, data and automation to create a measurable growth engine.

Mission

To help brands turn their marketing investment into measurable, scalable and sustainable growth.

Vision

To become the performance growth partner ambitious brands choose when they are ready to scale.

Current Experience & Proof Points

- 5+ years of performance marketing experience
- 150+ campaigns managed
- Experience across 20+ industries
- ₹10Cr+ revenue generated across campaigns
- 8X+ average ROAS across selected campaigns

Performance figures represent portfolio/case-study results and should be presented with appropriate campaign context.

6. Design Direction

Desired Style

Premium, modern, bold and minimal.

The website should feel like a high-performance growth company rather than a traditional digital marketing agency.

Visual Direction

- Premium typography
- Strong whitespace
- Clean layouts
- Data-driven visual elements
- Case-study focused presentation
- Subtle animations
- Modern UI
- Performance dashboards / metrics where relevant
- Strong visual hierarchy

Colour Direction

Use the existing PerformX brand identity as the foundation.

A premium dark/light visual system can be used, with strong contrast and minimal accent colours.

Animation

Yes, but subtle and purposeful.

Animations should communicate movement, growth, performance and technology rather than being decorative.
